As we continue through the pandemic we are mindful that a lot of families are experiencing the deaths of families and friends. Our mission remains the same even in these trying times, we are still searching for a way to make sure every baby survives. We cannot do that with out your support. We thank you in advance for helping us...

“in the belief that every child should live”

Sudden Infant Death Syndrome is still one of the leading causes of death in an infant from 1 month to 1 year of age. Although research has come a long way, there is still no cure or cause that has been found yet. Most babies go to sleep, appear perfectly healthy and do not wake up.

It has been almost 24 years since I lost my son Jason to SIDS each year we seem to get closer and closer to finding out why, with your continued support I believe that day may not be far off.

From the bottom of my heart I Thank you for continuing to honor not only my son but all the babies who have been lost to SIDS . . .
