THE FLORIDA SIDS ALLIANCE

SIDS kills over 100 babies in Florida every year. We provide family support, fund research, and provide education about reducing SIDS/other infant deaths. We need your support this year as we continue to expand our commitment to find a cure for SIDS. This year we are committed to creating a Florida SIDS Alliance Fund at the Roberts Program on (SUDP) Sudden Unexpected Death in Pediatrics at Boston Children's Hospital. We as an organization have supported research at this lab for a number of years and are excited to be a named part of the program.

WHAT CAN YOU DO TO HELP?
